About Clark Capital Management Group

For over 30 years, Clark Capital's investment philosophy has been driven by a single focus—adding value for our investors. We designed Navigator® Total Wealth Strategies to help you deliver portfolios that allow your clients to stay committed to achieving their long-term goals.

Our disciplined and research-driven investment approach is grounded in three core principles:

Meaningful Diversification:

Multiple asset classes and methodologies are incorporated to help align the client's risk comfort zone with their goals.

Opportunistic Asset Allocation:

We believe a rapidly changing investment landscape demands a flexible approach that can adapt to market conditions.

Risk Management:

Our approach to risk management is founded in active management, which allows us to proactively adjust asset allocations so your client can remain committed to reaching their long-term goals—regardless of the ups and downs of the markets.

*As of 9/30/2020. Includes assets under management and sub-advised assets

High Net Worth Strategies to Navigate Today's Markets

Designed to navigate changing market conditions, Navigator® Total Wealth Strategies are actively managed by our experienced team of portfolio managers. Each allocation is fully diversified, combining multiple strategies and asset classes into a single account.

Strategies are offered in five risk comfort zones and are available in tax aware formats. These strategies are designed to help enhance and protect your clients' wealth, so they can stay on track to achieve their unique goals and objectives.

Fully Diversified and Actively Managed

Navigator® Total Wealth Strategies utilize a disciplined combination of top-down and bottom-up processes to seek consistent risk-adjusted returns across equities, fixed income and alternatives. Each base allocation is determined by Clark Capital's long-term view of the overall asset classes. Our experienced team of investment managers perform ongoing macro-economic analysis and make tactical shifts to the portfolios to reflect our market outlook and to help keep the strategies aligned to their risk profiles.

Investment Process

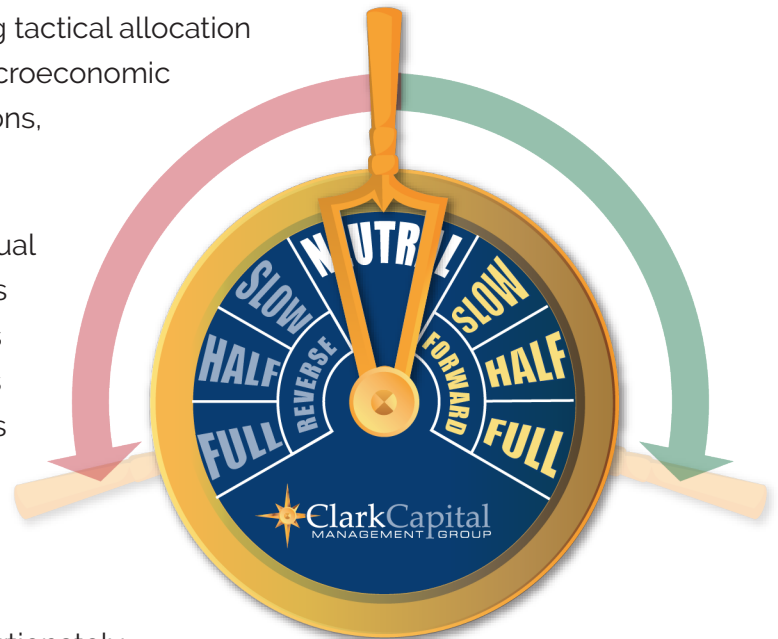

Navigate the Markets with a Tactical Approach

We utilize a research-based approach to making tactical allocation decisions within the portfolios based on five macroeconomic gauges: The Economy, Monetary Policy, Valuations, Investor Sentiment, and Technicals.

Each gauge is comprised of a number of individual indicators, which the Investment Team evaluates on an ongoing basis to determine if the gauge is positive, negative or neutral. Our analysis guides asset allocation shifts to help keep the portfolios aligned to their assigned risk profiles.

For example, on 3/13/20, following a sharp drop in the markets, we shifted portfolios to overweight equity, reducing fixed income proportionately.

On 7/1/20, we shifted back to target weightings following an incredible recovery in the equity markets.

Economic Gauges

Economy	Monetary Policy	Valuations	Investor Sentiment	Technicals
GDP Reports	Shape of the Yield Curve	Trailing and Forward P/Es for Major Indexes	Equity and Bond Trading Composites	Market Breadth
Leading Economic Indicators	Monetary Base	Earnings Yield of Stocks vs. Bond Yields	Margin Debt	Broad Market Technical Composites
Jobless Claims	Direction of Interest Rates	Equity Risk Premium	Volatility Index (VIX)	Proprietary Research on Relative Strength and Credit Trends
Credit Conditions	Relative Value of Stocks vs. Bonds

Focused on Helping You Deliver a Superior Client Experience

Today's high net worth client has complex needs and high expectations. That's why we're here to help support advisors in their efforts to deliver a superior client experience. We provide you with the following tools, so you can spend more time focused on your clients and what's important to them.

- **Dedicated High Net Worth Support Team:** Clark Capital's Client Portfolio Management Team of CFA®-level professionals work side-by-side with Portfolio Managers and Investment Consultants to provide detailed institutional analysis of prospective client portfolios and sales support to help you grow your high net worth business.

To help you retain your high net worth business, the Client Portfolio Management Team is available for quarterly client calls and reviews for accounts over \$1 million.

- **Client-Friendly Investment Proposals:** Create client-friendly investment proposals to help you clearly communicate the investment expertise you provide to your high net worth clients.
- **Ongoing Tax Optimization:** Throughout the year, Clark Capital incrementally harvests investment losses in order to offset gains and reduce ordinary income. Based on internal research, tax-loss harvesting has helped our clients earn an average of 1.04% of added annual returns over a three-year period.*

**Tax loss harvesting is a strategy of selling securities at a loss to offset a capital gains tax liability. It is typically used to limit the recognition of short-term capital gains, which are normally taxed at higher federal income tax rates than long-term capital gains, though it is also used for long-term capital gains. The tax-loss data presented is based on internal research of existing Clark Capital taxable accounts over \$1 million that were invested in at least 80% equities from 12/31/15 to 12/31/18. Any accounts funded after 12/31/15 were excluded from the study. The study assumed a tax rate of 20% for long-term, 39.6% for short-term for 2016 and 2017, and 37% for short term for 2018. Added annual returns were calculated by dividing the amount in taxes saved each year by the average beginning market value plus ending market value. The benefits of tax loss harvesting, if any, in reducing an investor's tax liability will depend on the investor's entire tax and investment circumstances, including but not limited to: income, state of residence, the purchases and dispositions of assets in household accounts outside of Clark Capital, type of investment, and investment holding period. Investors should confer with their personal tax advisor regarding the tax consequences of investing with Clark Capital. Past performance is not indicative of future results.
